Lifetime Growth Fund

Fund Update for the quarter ended 30 June 2026

This fund update was first made publicly available on 29 July 2026

What is the purpose of this update?

This document tells you how the Lifetime Growth Fund **(Fund)** has performed and what fees were charged. The document will help you to compare the Fund with other funds. Lifetime Asset Management Limited **(Lifetime)** prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this Fund

The Fund seeks to track composite indices (before annual fund charge and tax). The Fund invests mainly in growth assets with some exposure to income assets and is expected to experience high volatility.

Total value of the Fund	$4,867,566
The date the Fund started	22 October 2024

What are the risks of investing?

Risk indicator for the Lifetime Growth Fund

← **Lower risk** **Higher risk** →

1	2	3	4	5	6	7

← **Potentially lower returns** **Potentially higher returns** →

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at **sorted.org.nz/tools/investor-profiler/**

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. As the Fund has not been in existence for five years the risk indicator is based on the fund's returns data for the period 1 November 2024 to 30 June 2026 and market index data for the period 1 July 2021 to 31 October 2024. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (**PDS**) for more information about the risks associated with investing in this Fund.

How has the Fund performed?

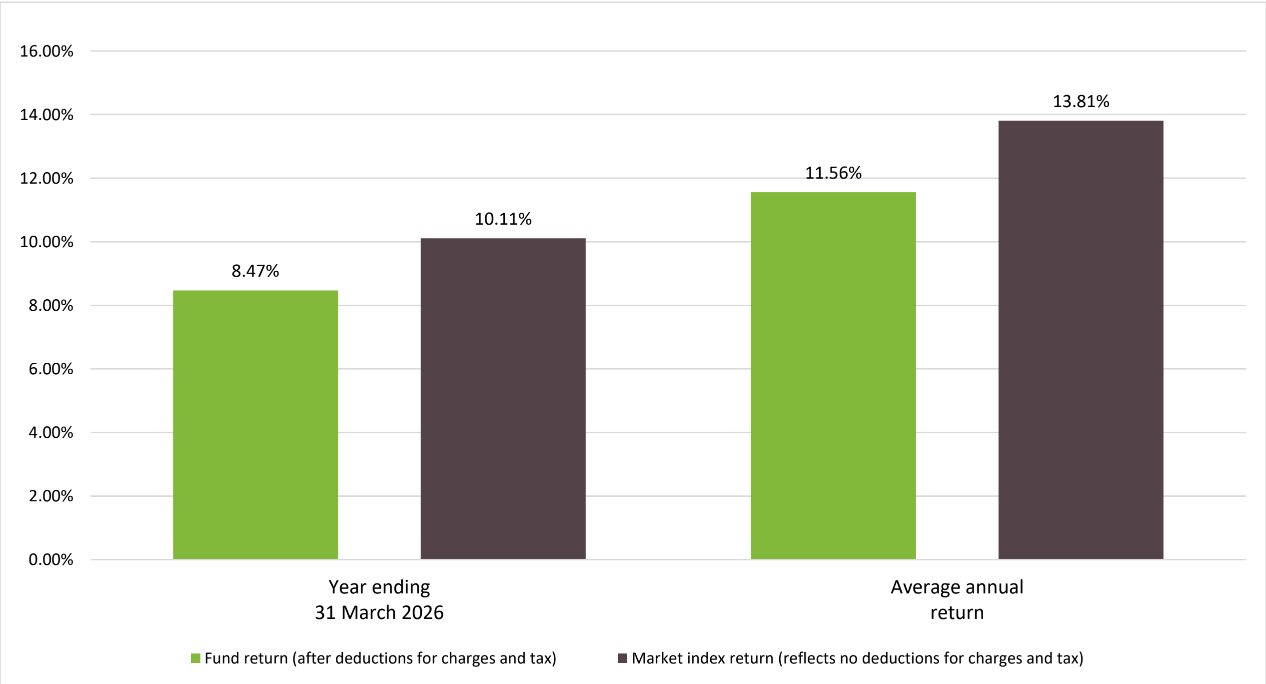
	Past Year
Annual return (after deductions for charges and tax)	13.96%
Annual return (after deductions for charges but before tax)	14.31%
Market index annual return (reflects no deduction for charges and tax)	16.02%

The market index annual return for the Fund is a composite index, calculated using the return of each asset class index the Fund invests in, weighted by the Fund's benchmark asset allocation. To the extent that imputation credits are available, they are included in the market index.

See the Statement of Investment Policy and Objectives (**SIPO**) for details of the Fund's benchmark asset allocation and the asset class indices.

Additional information about the market index is available in the 'SIPO' document on the 'Scheme Register' at **disclose-register.companiesoffice.govt.nz** (search for 'Lifetime Retirement Funds').

Annual Returns - Lifetime Growth Fund



This shows the fund return after fund charges and tax for each year ending 31 March since the Fund started. The last bar shows the average annual return since the Fund started, up to 30 June 2026.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (**PIR**) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Fund are charged fund charges. In the year to 31 March 2026 these were:

	% of net asset value
Total fund charges	0.99%
Which are made up of:	
Total management and administration charges	0.99%
Including:	
● Manager's basic fee	0.66%
● Other management and administration charges	0.33%
Total performance based fees*	0.00%
Other Charges	0.00%

*There are no performance fees charged by the Fund.

All fees are GST inclusive (if applicable).

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from funds). See the PDS for more information about those fees.

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Ben had $10,000 in the Fund at the start of the year and did not make any further contributions. At the end of the year, Ben received a return after fund charges were deducted of $1,431 (that is 14.31% of his initial $10,000). Ben also paid $0 in other charges. This gives Ben a total return after tax of $1,396 for the year.

Smart Wholesale Global Credit Fund	2.87%	International Fixed Interest	New Zealand	-

The top 10 investments make up 97.20% of the Fund.

Currency hedging

The following foreign currency exposure targets will apply to international assets:

• International Fixed Interest – 100% hedged to New Zealand dollars.

• Australian Equities – unhedged.

• International Equities – 50% hedged to New Zealand dollars. However, we may aim to add value by tactically adjusting the strategic hedging level on international shares above or below the benchmark of 50% depending on our view of how the New Zealand dollar will perform.

• International Listed Property – 100% hedged to New Zealand dollars.

• International Listed Infrastructure – 100% hedged to New Zealand dollars.

Additional information about currency hedging is available in the 'SIPO' on the 'Scheme Register' at **disclose-register.companiesoffice.govt.nz** (search for 'Lifetime Retirement Funds').
